Description : Description du produitThe death of the Roman Empire is one of the perennial mysteries of world history. Now, in this groundbreaking book, Peter Heather proposes a stunning new solution: Rome generated its own nemesis. Centuries of imperialism turned the neighbors it called barbarians into an enemy capable of dismantling the Empire that had dominated their lives for so long. Heather is a leading authority on the late Roman Empire and on the barbarians. In *The Fall of the Roman Empire*, he explores the extraordinary success story that was the Roman Empire and uses a new understanding of its continued strength and enduring limitations to show how Europe's barbarians, transformed by centuries of contact with Rome on every possible level, eventually pulled it apart. He shows first how the Huns overturned the

existing strategic balance of power on Rome's European frontiers, to force the Goths and others to seek refuge inside the Empire. This prompted two generations of struggle, during which new barbarian coalitions, formed in response to Roman hostility, brought the Roman west to its knees. The Goths first destroyed a Roman army at the battle of Hadrianople in 378, and went on to sack Rome in 410. The Vandals spread devastation in Gaul and Spain, before conquering North Africa, the breadbasket of the Western Empire, in 439. We then meet Attila the Hun, whose reign of terror swept from Constantinople to Paris, but whose death in 453 ironically precipitated a final desperate phase of Roman collapse culminating in the Vandals' defeat of the massive Byzantine Armada: the west's last chance for survival. Peter Heather convincingly argues that the Roman Empire was not on the brink of social or moral collapse. What brought it to an end were the barbarians.

Prsentation de l'diteurThe death of the Roman Empire is one of the perennial mysteries of world history. Now, in this groundbreaking book, Peter Heather proposes a stunning new solution: Centuries of imperialism turned the neighbors Rome called barbarians into an enemy capable of dismantling an Empire that had dominated their lives for so long.A leading authority on the late Roman Empire and on the barbarians, Heather relates the extraordinary story of how Europe's barbarians, transformed by centuries of contact with Rome on every possible level, eventually pulled the empire apart. What brought it to an end were the barbarians.Revue de presseLike a late Roman emperor, Heather is determined to impose order on a fabric that is always threatening to fragment and collapse into confusion; unlike most late Roman emperors, he succeeds triumphantly. (The Times of London)A rich and dramatic synthesis of the latest research on Gibbon's old story.... The drama of Mr. Heather's book lies not just in the world-changing story he has to tell, but in his behind-the-scenes view of how historians work. Like a master detective, Mr. Heather employs the most various techniques (everything from pollen sampling to archaeology to literary criticism)Gibbon's 'awful revolution' (the decline and fall of the Roman Empire in the West)To a period that has often appeared as impenetrable as it is momentous, Peter Heather brings a rare combination of scholarship and flair for narrative. With this book, a powerful searchlight has been shone upon the shadow-dimmed end of Rome's western empire. (Tom Holland, author of Rubicon: The Last Years of the Roman Republic)Masterful, lucid.... Always rewarding. (ForeWord Magazine)Prsentation de l'diteurThe death of the Roman Empire is one of the perennial mysteries of world history.
